ABOUT Steve

The Long Road to "Monsters of Rock" and beyond.

For over 40 years, Steve Graham has been a force in the music industry. His journey began as a young musician in Newcastle upon Tyne, where he honed his craft in the world of rock music. It wasn't long before he was signed by the legendary manager and record producer Chas Chandler, known for his work with Jimi Hendrix and Slade, and for being a top-selling artist with The Animals. Working with Chandler was an invaluable experience, one that shaped Steve into the musician he is today.

Steve went on to form the Steve Graham Band, which toured the stadium circuit and shared the stage with an incredible list of icons, including Sting and the Police, Bryan Adams, Tina Turner, Alice Cooper, U2, Dire Straits, and countless others. After 18 years of live performance, he transitioned to composing soundtracks for movies and documentaries, while also producing records and writing songs for a new generation of artists.

In 2001, major record labels began approaching Steve to help with artist development, a role he continues to this day. After establishing a music and film production company in Dubai, his passion for live music and connecting with people remained strong.

Steve is ready to share his passion with new audiences world wide.
He brings you his critically acclaimed array of incredible shows, “Pink Floyd Tribute”, “Monsters of Rock” & “Back To The 80's”
With stunning video, graphics, and projection images, these shows are a high-energy journey back to a time when classic hit songs were the soundtrack of our lives.
